

Antistatic Clear Nylon Moisture Bag 1304 Series

Outer Polyester Layer

Middle Moisture Barrier Layer

Inner Polyethylene Layer

Technical Specifications

Description Made from multiple layers of polymer films. Bags provide puncture resistance and serve as a moisture barrier.

Construction From the outermost to innermost layers.

Physical Properties	Typical Value	Unit	Test Method
Total thickness	3.0 +/- 10%	Mils	ASTM D-2103
Tensile strength	> 60	N/mm ²	ASTM D-882
Punctual Resistance	> 2	ibf	ASTM D-2582
Tear Strength	> 8	N	ASTM D-1004
Heat Seal Strength	>67	N/25mm width	ASTMD-882
MVTR 100°F	<0.008	g/ 100 in ² / 24 hrs	ASTM F-1249
