

**Antistatic Polyester Swab
5316-0030
SW-710**

Name	SW-710	Test method
Pole	Length : 115 ± 0.1mm, diameter : φ4.0mm ± 0.1mm	Caliper
	Material : PP	
	Color : black	Visual
Swab head	Length : 23 ± 0.1mm Width : 7.3 ± 0.1mm	Caliper
	Material : Polyurethane	Visual
	Density : 100PPI	
	Thickness : 4.0mm ± 0.1mm	Caliper
	Water absorption : Good (water droplets on the surface immediately after 3 seconds)	Experiment
	Surface impedance : < 10 ¹⁰ Ω	Surface Resistance Tester
Feature	class 100	LPC
	Can be stained with water, alcohol or grease solvent such as class, wipe	Experiment
Scope of application	Electronic, optical dust-free rooms, as well as other industrial uses	
Packaging	100pcs/bag, 100bags/ctn	Electronic scale
